

APUC Ltd. (including its subsidiary UCSS Ltd.)**GUIDE TO INFORMATION AVAILABLE THROUGH THE MODEL PUBLICATION SCHEME 2018**

The Freedom of Information (Scotland) Act 2002 (the Act) requires Scottish public authorities to produce and maintain a publication scheme. Authorities are under a legal obligation to:

- publish the classes of information that they make routinely available
- tell the public how to access the information and what it might cost.

APUC Ltd. and its subsidiary UCSS Ltd. have adopted the Model Publication Scheme 2018 produced by the Scottish Information Commissioner. This scheme will be reviewed annually

You can see this scheme on our [website](#) or by contacting us at the address below.

The purpose of this Guide to Information is to:

- allow you to see what information is available (and what is not available) in relation to each class,
- state what charges may be applied
- explain how you can find the information easily
- provide contact details for enquiries and to get help with accessing the information
- explain how to request information we hold that has not been published

Availability and formats

The information we publish through the model scheme is, wherever possible, available on our website. We offer alternative arrangements for people who do not want to, or cannot, access the information online or by inspection at our premises. For example, we can usually arrange to send information to you in paper copy (although there may be a charge for this).

Exempt information

We will publish the information we hold that falls within the classes of information below. If a document contains information that is exempt under Scotland's freedom of information laws (for example sensitive personal information or a trade secret), we may remove or redact the information before publication, but we will explain why.

Copyright

Where APUC Ltd holds the copyright in its published information, the information may be copied or reproduced without formal permission, provided that:

- it is copied or reproduced accurately
- it is not used in a misleading context
- the source of the material is identified, and
- it is not used for gain or any part resold or traded

Where APUC Ltd does not hold the copyright in information we publish, we will make this clear.
